

Keep Bhutan Beautiful

Lhomon Education is very pleased to present the third installment of Lhomon Education's series of educational videos and songs: Keep Bhutan Beautiful, directed by Loday Chophel and made possible by a grant by Helvetas. An elderly Bhutanese woman has run out of chilies and goes to pick some in the fields but she runs into a harsh reality - Bhutan is changing. Gangs, construction, traffic. She takes respite on a hillside looking over the once fertile valley of Thimphu and sheds a single tear. Based on the classic American 60 second spot "Keep America Beautiful." Produced by Lhomon Education in Bhutan with the financial support of Helvetas. Directed by Loday Chophel, this film won the golden cup award at the 2013 Beskop Film Festival in Bhutan. (2013 Lhomon Education Films) We hope you like it!
